## MEMORANDUM FOR THE RECORD:

25X1A6a

Reference: CIA Current Intelligence Digest of August 14, Item Number 4 says that in the opinion of the [REDACTED] the Hungarian Government, at the General Assembly on September 10, will produce evidence to show that the Hungarian uprising was "engineered by western plots to reinstate the Bourgeois Regime". OCI thinks that recent arrests in Hungary have "doubtless enabled the Kadar regime to build up a case 'proving' its contentions". I thought I would make a note of this since if this happens it would undoubtedly produce hitherto unpublished propaganda with the usual amount of substance to it. I thought it might be something to be prepared for.
